

SHIVANSH SAXENA

SDE Intern · Backend Developer · Full Stack Developer

shivanshsaxena127@gmail.com | +91-7599526792 | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

2nd-year CSE student (CGPA: 8.79/10) with hands-on production experience in full-stack development using Node.js, Express.js, React.js, and MongoDB. Strong in RESTful API design, MVC architecture, authentication & authorization, and cloud deployment on Render. Solved 950+ DSA problems. Selected as GSSoC 2026 Open-Source Contributor. Targeting SDE / Backend / Full Stack Intern roles at product-based companies and engineering-driven startups.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), SQL, Python

Frontend: React.js, HTML5, CSS3, EJS, Responsive UI Design

Backend: Node.js, Express.js, Flask, RESTful API Development, Server-Side Rendering

Databases: MongoDB (Atlas), Mongoose ODM, MySQL

Deployment / Cloud: Render, Vercel, Cloudinary, Git, GitHub

Core Concepts: MVC Architecture, CRUD Operations, Authentication & Authorization, Session Management, OOPS, DSA, Database Design, API Integration

PROJECTS

ResumeForge Pro – ATS-Friendly Resume Builder

June - 2026

React.js · Vite · jsPDF · html2canvas · LocalStorage | [GitHub](#) | [Live Demo](#)

- Developed a modern ATS-friendly resume builder with live preview, customizable sections, and professional resume templates.
- Implemented PDF export functionality using jsPDF and html2canvas, enabling users to generate downloadable resumes instantly.
- Built dynamic sections for education, skills, projects, experience, and achievements with automatic LocalStorage persistence.
- Designed a responsive SaaS-style interface supporting dark mode, real-time updates, and mobile-friendly layouts.

WanderLust – Full-Stack Property Listing Platform

Jan 2026 – Apr 2026

Node.js · Express.js · MongoDB Atlas · EJS · Cloudinary · Leaflet.js · Render | [GitHub](#) | [Live Demo](#)

- Architected and deployed a production full-stack app on Render with modular MVC architecture, clean RESTful routing (15+ endpoints), and server-side rendering via EJS.
- Implemented session-based authentication & authorization using Passport.js — protected routes ensure only listing owners can edit or delete their data.
- Designed a normalized MongoDB Atlas schema (users, listings, reviews) with Mongoose; cascading deletes preserve referential integrity across collections.
- Built a Cloudinary media pipeline with dynamic image preview on edit pages, and migrated maps from Mapbox to open-source Leaflet.js + OpenStreetMap.

VERDIQUE – Smart Farming Intelligence Dashboard

Oct 2025 – Dec 2025

Flask · Python · HTML · CSS · JavaScript · ML

- Built a full-stack dashboard integrating 4 ML models (soil, crop, pest, yield) via a Flask REST API backend that processes sensor inputs and returns structured JSON.
- Delivered data-driven UI consuming backend API responses in real time; ranked Top 45 / 360+ teams at Smart India Hackathon 2025 (Internal Round).

InclusivePay – Accessible Payment Web App

Feb 2025

JavaScript · Web Speech API · CSS · Accessibility Engineering

- Engineered an accessible fintech interface with Voice Pay, Haptic Feedback, and High-Contrast/Dark Mode using browser-native Web APIs.

EDUCATION

B.Tech – Computer Science & Engineering | CGPA: 8.79 / 10

2024 – 2028

GL Bajaj Institute of Technology and Management, Greater Noida

ACHIEVEMENTS & OPEN SOURCE

- GirlScript Summer of Code (GSSoC) 2026 – Selected as Open-Source Contributor; contributing to production-grade open-source repositories.
- Smart India Hackathon 2025 – Top 45 / 360+ teams for VERDIQUE, an ML-integrated agricultural full-stack platform.
- Hackground 2k25 Finalist – InclusivePay, an accessible fintech app recognized for accessibility engineering impact.
- 950+ DSA Problems Solved – LeetCode, Codechef, Codeforces; strong algorithmic problem-solving foundation.
